

Spreader Bars for Forklift

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the biggest independent spreader company in the world. They are a devoted producer of spreaders utilized for many several applications such as the trailers, handling of containers and swap bodies.

Engineering is done in house by way of utilizing all of the most up-to-date CAD systems and FEM tools. The ELME business currently has more than 125 employees. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers around the world.

The product series of ELME consist of numerous spreaders designed for various container and trailer handling operations. A few of their inventory consist of: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes in addition to a wide array of attachments.

Manufacturing and production of ELME products are developed in highly automated purpose designed factory. In the year 2008, they created 1150 spreaders by way of using quality parts to ensure reliability and high standards. Major features of ELME include design simplicity, market response and innovative modular spreader concept.
