

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are now 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those operating in North America. Clark has five major lines of lift trucks across the world, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specialized parts built for 20 distinctive brands of forklifts and automated equipment. Your regional Clark Seller is your total source for availability of all your components requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very outstanding global support network. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing protection features such as the operator restraint system. This exceptional dedication to safety is at this time a standard feature on every forklift.

Clark's continual goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first forklift manufacturer across the world to be certified with the internationally accepted quality standard ISO 9001 for all of their manufacturing plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has preferred the particularly economical and beneficial system of "Lean Manufacturing" for its assembly plants and application of resources. This system was developed to acknowledge the most successful approaches of production plant stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The contemporary value engineering program combines progressive product growth and provides superior client support and service within the industry.
